

Aerial Lift Train the Trainer

Key points

CertifyMeOnline (CMO) lets your team complete aerial lift training without leaving your job site.

You save time and money by avoiding third-party training providers.

The program creates an in-house safety trainer who can handle initial and renewal training.

One course covers aerial lifts, scissor lifts, and MEWPs.

Benefits of CMO's Aerial Lift Train the Trainer Course

Affordable pricing — Safety training that fits your budget.

Fully online training — Access MEWP and scissor lift trainer content from any computer with internet.

Instant proof of certification — Print aerial lift and MEWP licenses right away after passing.

Fully online and self-paced — learn anytime, anywhere

100% OSHA-compliant — Helps reduce liability and prepares you for OSHA inspections.

Official operator cards — Physical cards are mailed after completion.

Program Cost and Coverage

The Aerial Lift Train the Trainer program costs \$149.

Covers all aerial lift classes, including scissor lifts and MEWPs.

Allows employees to become certified training coordinators for your company.

Supports both new training and renewal certifications.

Understanding Aerial Lift Trainer Certification

- ✓ Course teaches safe, OSHA-compliant aerial lift training.
- ✓ Explains OSHA rules and proper operator instruction.
- ✓ Shows the difference between equipment use and full operator training.
- ✓ Prepares trainers to teach new operators correctly.

Why Choose CMO

- ✓ Gives companies full control of their safety training.
- ✓ Saves time and money with in-house trainers.
- ✓ Covers aerial lifts, scissor lifts, and MEWPs.
- ✓ Helps reduce accidents, liability, and OSHA fines.
- ✓ Trusted by companies across the U.S.

Online Train-the-Trainer Program

- ✓ 100% online and self-paced.
- ✓ Can be completed from any internet-connected device.
- ✓ Easy to review lessons anytime.
- ✓ Faster and more affordable than classroom training.
- ✓ Ideal for companies bringing training in-house.

OSHA Aerial Lift & Scissor Lift Training Requirements

- ✓ Operators must be retrained every 3 years.
- ✓ Proper training helps avoid OSHA fines and violations.
- ✓ A strong training program reduces accidents and improves safety.
- ✓ Refresher training is required after accidents or injuries.

Aerial Lift Train the Trainer Certification Process

- ✓ Sign up online and pay the \$149 course fee.
- ✓ Learn how to prepare for OSHA inspections and audits.
- ✓ Certification renews every 3 years with free lifetime renewals.
- ✓ Start training right away with OSHA-compliant content.
- ✓ Gain an in-house safety expert to manage certifications.

Aerial Lift Training Materials

- ✓ Fully online, self-paced training.
- ✓ Easy to review lessons anytime.
- ✓ Includes checklists for hands-on operator evaluations.
- ✓ Helps trainers confidently manage in-house certification.
